# Reaper class guide tera

Tera reaper. Reaper class tera. Reaper guide tera.

The mower starts with level 50, and can be created only if you already have another character at level 40. Reaper is a first level class in Tera, and it is not so easy to dominate this powerful young man. If you want something that is still high in damage and does not require MANA fill, try these two: Cable Step-> Shadow Raffle Cable Step - - As you can see, you need a lot of work to unlock Reaper and to update it to your first level form, but as soon as you do, you will have the most powerful character in Tera. Also, do not forget to review other TERA guides in Gameskinny following the links. Next, but since it can link many different skills together, then you will find some other useful options for genial combos and rotations: Shadow harvesting -> Pendulum Strike -> Whipsaw -> Grim Stich -> Soltense Strike Death Spiral -> Double Shear -> Sombreen strike -> Sundending strike -> Spiral of death Previous combos are very effective in terms of damage, but they consume a lot of mana. However, you will see this search only when it reaches level 65. In this way, it can convert the guardian into the twistshard set, which can be converted into the Frostmetal assembly. Then you will find recipes for the four sets: Guardian Set Weapon: 109x Golden Talent 91x Wooden Scrap 39x Arcos Catalyst 6,974 Gold Breast Armor: 80x Golden Talent 64x Wooden Scrap 28x Arches Catalyst 4,971 Gold / Footwear : 66x Golden Talent 51x Wood Scrap 22x Archdevan Catalyst 3,977 Gold Twistshard Set Weapon: 353x Golden Talent 100x Polishing Arunic Ore 9x Archdevano Oil 21,251 Gold Gold Breast: 254x Golden Talent 70x Polished Arunic Ore 7x Archdevano Oil 15,266 Gold Maintenance / Footwear: 198x Golden Talent 58x polished Arunic ORE 5x Archdevan ORE 5x Gold FrostMetal Set Weapon: Golden Daric 58x Liquid Metal 40x Dispositivo HipnA'tico 5x Surfactant 46x Emerald 5,221 Gold Coffre Armadura: 267x Daric Golden 35x Liquid Metal 26x 26x Device 3x Archdevan Surfactant 28x Emerald 3,922 Gold Handwear/footwear: 187x Golden Daric 26x Metal Liquid 26x Hypnotic Device 2x Archdevan Surfactant 19x Emerald 6,467 Gold Stormcry Set Weapon: 504x Golden Plate 96x Artisan Tools 55x Copper Closure Jo 28x 28x Pan-Ash 9x Elemental Essence 31x Emerald 10x Diamond 13,776 Gold Chest Armor: 341x Golden Plate 68x Craft Tools 41x Copper Closing 20x Pan-Ash 7x Elemental Essence 21x Emerald 7x Diamond 13,076 Gold Handwear/footwear: 245x Golden Plate 50x Artisan Tools 34x Copper Closure 16x Pan-African Ash 6x Elemental Essence 24x Emerald 4x Diamond 18,885 Gold Best Defensive and Offensive Crystals You can use glyphs and crystals to upgrade your Reaper's weapons and equipment. However, you should be ready to exchange it for Slaying crystals that will increase critical damage when you fall below the 50% threshold of your HP. When it comes to gear crystals, you need a powerful mana regeneration ability, which is provided entirely by the Shiny Crystals. This is one of your most powerful combat skills. So if you're a new player, there's a lot of grinding waiting for you before you start playing as Reaper. But if you already have one and are looking for an updated leveling guide, then you have come to the right place. The whole progression system starts with the complete set of Guardian, which you can get by doing the mission "Fresh Arms and Legs". So start grinding! After receiving the Guardian set, you can start converting it into more expensive sets with the help of spells. You can buy it here for 4995 EMP, which is equivalent to around \$30. The Best Reaper Equipment The high-end Reaper equipment is the Stormcry set, which is not available immediately, but must be upgraded from level sets. However, when it comes to crystals, the two best options for the offensive are Forceful and Slaying, and for the defense, bright and implacable. forceful set of crystals is ideal for your weapon, as it will increase the attack power from the rear. This means that you have to take it to level 65 as soon as possible. How do you do it? Well, the best option is through dungeon queues or simply by performing history missions. If none of these options is an option for you, then you can try secondary missions or cutting-edge missions. The last form, although not so exciting, is to buy the level 60 parchment, which will immediately grant level 60. Here you will find s Information about the best glyphs and possible crystals for reaper weapons, your equipment and accessories, and some of the best combos you can use in PVE and PVP. How fast level rising you want your reaper to shine in all its splendor , then you simply have to give only the best equipment and weapons possible. But also you need a lot of health to survive enemy attacks, so be sure to use relentlessly on the rest of your equipment. Roladoras and mush combos acquire an active skill at level 60 called Shadow Reaping. Finally, the FrostMetal assembly can be converted into the STORMCRY. CAD enchanting set requires certain articles, which can be purchased at the Specialty Merchant, and a certain amount of gold. The glyphs shown in the upper image are standard for the most optimal PVE experience.
